ULLYETTE BROTHERS NURSERIES

DANVILLE • NEW YORK

AUG 2 1938
U. S. Department of Agriculture

To You, Mr. and Mrs. Buyer!

For over 30 years we have been growing Nursery Stock here at Dansville, the kind of stock we would like to buy if we were planting homegrounds, a garden, or an orchard.

We are proud of this home Nursery of ours, and we like to show visitors our clean, healthy plants. If you have a home-beautification idea in mind, the landscape member of the family can lay out a plan that will please you.

We buy our drygoods and groceries from merchants we believe in, and want our customers to feel that they can trust us. Come in and let's get acquainted.

HEDGE PLANTS

BERBERIS Thunbergi (Japanese Barberry). 12 to 15 in., 80 cts. for 10; 15 to 18 in., \$1.20 for 10; 1½ to 2 ft., \$1.50 for 10.

EVERGREENS

Pfitzer's Juniper

We doubt whether you have ever seen Evergreens as well balled and burlapped as the ones we offer. A good ball of earth is the secret of making Evergreens live. We know how most of them are taken out, and no one could make them live—it's the way they are handled. Our trees live.
